

DRAINING VALVE LOCATION

SPA FEELING

Feeling

To help you clean your spa, we've added a draining valve.

HERE'S WHERE IT'S LOCATED ON THE FEELING SPA:

To access it, **remove the panel under the keypad**. The drain hose, identified by a **green sticker**, is located under the spa pack. In some cases, it may be hidden behind the pump.

IMPORTANT

Once you've finished cleaning your spa, make sure you replace the thermofoil completely, to avoid losing energy efficiency, before replacing the panel.

DRAINAGE FREQUENCY

You should drain and refill your spa every one to three months depending on usage. You should also replace the filter cartridge and wipe down the spa.
